

Digital Acceleration at Work

Enterprise Software Modernization and Systems Integration

Overview:

Prosol Group is a software company specializing in commercial web applications and integration solutions. With a rich history dating back to 1986, we have consistently pioneered innovative software solutions to meet the evolving needs of our clients. Over the years, we have established ourselves as a trusted provider of integration services in the banking sector, serving clients across thirteen African countries and expanding our reach to Beijing, China.

Mission:

Our mission is to help companies thrive by delivering cutting-edge software solutions that increase their value.

We strive to provide seamless integration, conversion, and migration services, enabling businesses to leverage modern technologies and optimize their operations.

We focus purely on software modernization. Our proprietary technologies liberate digital acceleration by enabling integration of disparate systems.

Products and Services

i-Con (ESB) System

Our flagship product, the i-Con (ESB) system, empowers banks and financial institutions to achieve efficient data exchange and communication between disparate systems, enabling streamlined processes and enhanced productivity.

MVsharp and MVpro

Prosol offers MVsharp and MVpro, our conversion tools designed to facilitate the smooth migration from Multi-Value applications to the Microsoft platform. These solutions ensure a seamless transition, allowing businesses to harness the power of the .Net framework and SQL Server database without changing your multi-value code base.

MVsync

As a standalone product, MVsync enables real-time synchronization and data replication from multi-value systems to SQL Server. It ensures data consistency, integrity, and availability, enhancing overall organizational efficiency.

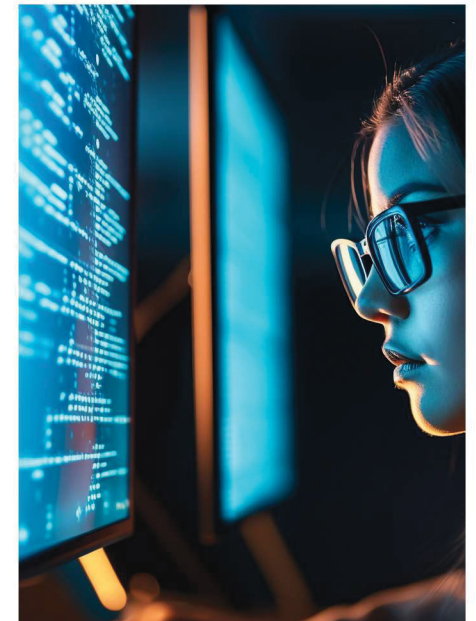

MVrest

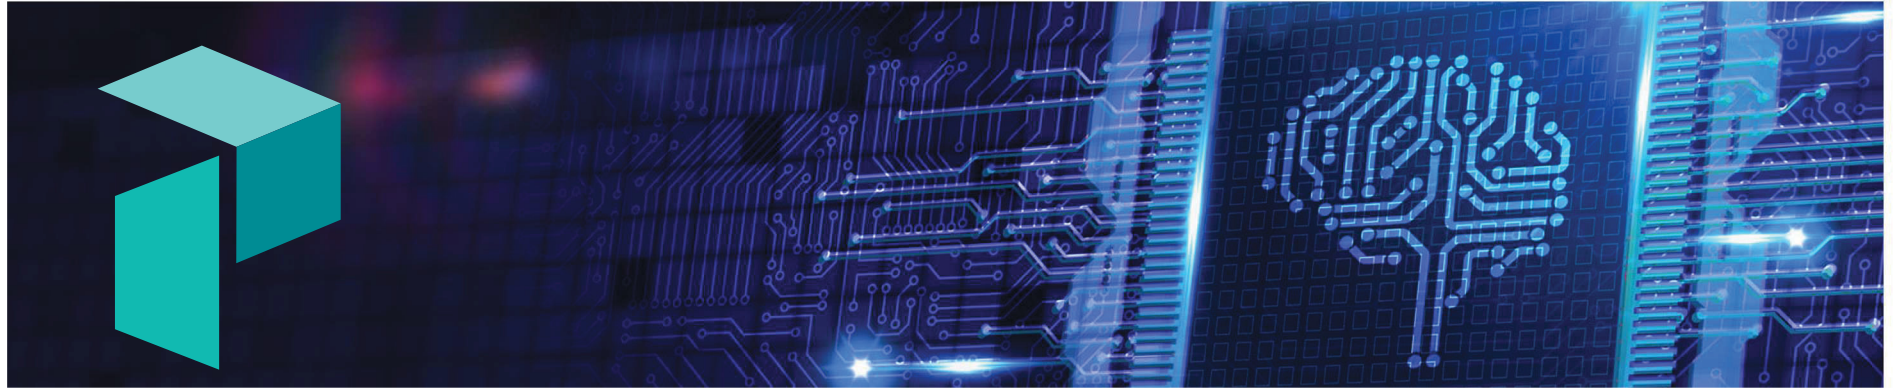

Another standalone offering, MVrest provides a RESTful API framework, allowing businesses to expose their MultiValue database resources as RESTful web services. This enables seamless integration with modern applications, facilitating interoperability and enabling efficient data exchange.

MVsharp Development Tools

MVsharp offers a powerful development toolset that brings together the best features from various MultiValue (MV) software environments such as UniVerse, UniData, and D3. With MVsharp, clients can leverage the familiarity and functionality of these MV platforms while taking advantage of modern technologies and contemporary approaches.

By emulating the features available in different MV environments, MVsharp provides a flexible and efficient development environment for businesses seeking to enhance their software applications.

Aligning existing technology with progressive intelligence

Financial Services Arena

Our primary focus is the banking sector, where we have achieved remarkable success. We serve banks and financial institutions of all sizes, ranging from local and regional entities to global and multinational organizations.

With a strong presence in thirteen African countries and expanding into Beijing, China, we are able to fulfill the unique integration and conversion requirements of the financial services industry.

Software Modernization

ProSolutions specializes in software development that harmoniously combines seasoned techniques and tools from multiple landscapes with contemporary approaches. We recognize the importance of leveraging Common Language Runtime (CLR) environments and database management systems (DBMS).

Accordingly we integrate MultiValue with CLR run machines, including .NET and Mono. This approach allows us to maximize the benefits of both MultiValue and modern technologies, breathing new life into solid, mature applications.

Client Relationships

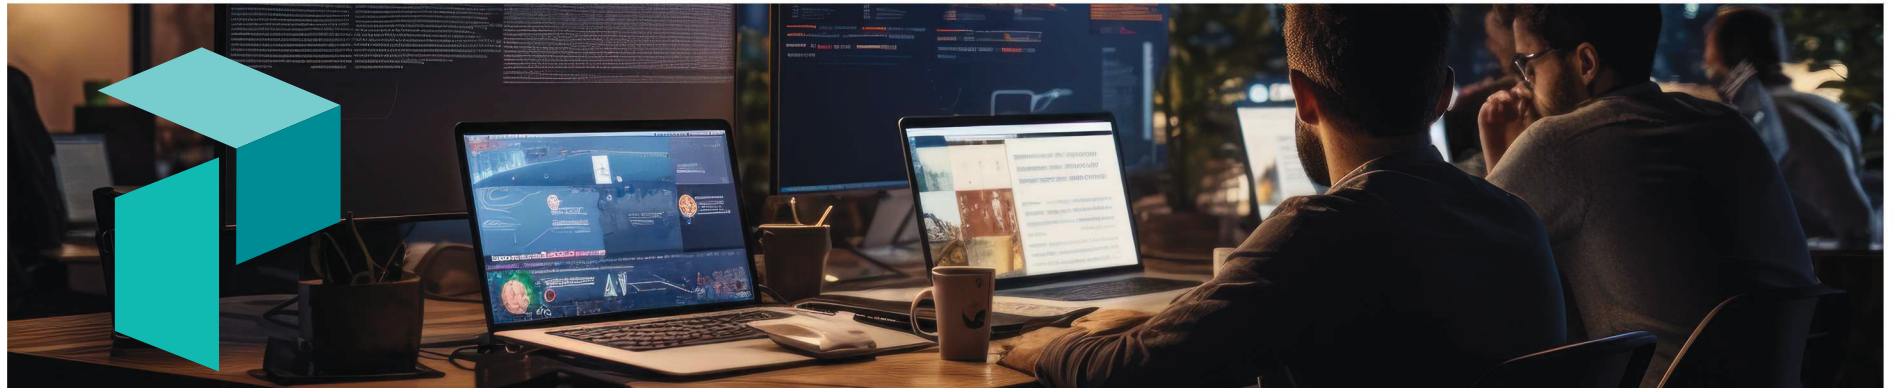

We have built a reputation for adding ongoing value to our clients' businesses and take pride in our long term relationships, some of which have spanned over 30 years.

Our commitment to excellence and delivering successful solutions has fostered strong partnerships and enduring relationships. By combining our deep expertise in MultiValue software with SQL DBMS products, we bring a unique blend of skills and knowledge to our clients, supporting both established enterprises and fresh ventures in achieving their goals.

Partnerships

Trust and integrity are core values that underpin our approach to building successful business relationships. We believe in the power of partnerships and celebrate the success of both our partners and clients.

By fostering a collaborative environment, we create synergistic relationships that drive mutual growth and accomplishment. Our commitment to reliability has allowed us to forge strong alliances and consequently deliver exceptional solutions for clients and stakeholders alike.

Competitive Advantage

Prosol Group distinguishes itself through several key strengths:

Extensive Experience

With over three decades in the industry, we possess deep domain expertise and a comprehensive understanding of the banking sector's intricacies.

Integration Excellence

Our i-Con (ESB) system has gained significant recognition, enabling us to provide robust and reliable integration solutions to our clients.

Seamless Migration

MVsharp and MVpro offer a hassle-free migration path from the Multi-value environment to the Microsoft platform, ensuring a smooth transition for businesses.

Innovative Solutions

We continually enhance our product offerings to stay at the forefront of technological advancements, with MVsync and MVrest as examples of our commitment to innovation.

Talented People

At Prosol Group, we recognize that our people are the foundation of our success. We are proud to provide a working environment that attracts and retains superior talent in our profession. Our team consists of highly skilled individuals who bring diverse expertise and perspectives to the table. We foster a culture of motivation and empowerment, enabling our people to make a difference in the work they do. By investing in our employees and nurturing their growth, we are able to consistently deliver the highest levels of service to our clients.

Geared for Growth

Prosol Group is geared for future growth and expansion. Our strategic partnership with an American MultValue sector player allows us to tap into the vast potential of the United States market and explore new growth opportunities. We plan to leverage our existing expertise, strong market presence and product portfolio to continue serving the financial sector while gaining access to new industries and markets.

Management Team

GRANT HART (CTO)

Grant Hart is a highly experienced Chief Technology Officer who plays a crucial role in driving innovation within the company. With a deep understanding of advanced technologies and their practical applications, Grant shapes Prosol's technology strategy to ensure alignment with its customers' business objectives.

He actively seeks opportunities to leverage emerging technologies and translate them into practical solutions that exceed customer expectations. His ability to bridge technical concepts with business goals is key to the group's success. Through his technical expertise and strategic mindset, Grant fosters innovation that delivers exceptional results in the ever-evolving technology landscape.

ALAN WILLIAMS (CEO)

As Prosol's Chief Executive Officer Alan brings strategic thinking, industry expertise, and strong leadership skills to his role. He is responsible for setting the company's direction and ensuring its ongoing competitive advantage.

Alan's deep understanding of market dynamics and customer needs has enabled him to drive key initiatives that have positioned Prosol Group as a leader in its field.

Under his guidance, the company has achieved notable success both domestically and internationally. Since its inception, Alan has played a pivotal role in building the group's reputation as a respected player in various markets.

RYAN HART (COO)

With an extensive career in the software industry, Ryan's leadership skills and knowledge have been instrumental in Prosol's growth for several years. As Chief Operating Officer he oversees the group's day-to-day operations and strategic initiatives while inspiring operational excellence.

He focuses on fostering innovation and collaboration, optimizing processes and delivering world class solutions to customers. By aligning business goals with market demands he shapes product offerings and empowers the Prosol team. His inclusive leadership style has contributed to the group's success and enhanced its credible reputation in its chosen market segments.
